SUMMARY

Computer science graduate and full-time IT technician at a Puerto Rico supermarket since 2021. I run the store's systems and product database, supervise daily operations, and build the software around them. Two government IT internships. Bilingual in English and Spanish.

EXPERIENCE

IT Technician

Oct 2021 to present

"El Mejor" Supermarket, Carolina, Puerto Rico

- Oversee store operations, enforce store policies and supervise staff.
- Coordinate warehouse organization and keep inventory records in order.
- Manage and normalize a database of 10,000+ products with multiple attributes each.
- Provide day-to-day IT support for the store's computers and software.

Software Development Intern

Feb to Jun 2025

Department of Economic Development and Commerce of Puerto Rico (DDEC), IT Department

- Administered agency-wide Microsoft SharePoint sites.
- Resolved IT tickets and debugged existing code.

Software Development and Project Management Intern

Apr to Sep 2024

Office of Management and Budget of Puerto Rico (OGP), IT Department

- Helped design software that connects to Oracle databases and web APIs.
- Made training videos that staff still use to learn an important admin system.

Vice President, Secretary and Project Manager

Aug 2024 to present

Computer Science Student Association (AECC), University of Puerto Rico at Bayamón

- Organized events for 50+ students on algorithms, programming and teamwork.
- Ran a recruitment drive that brought in 100+ members.

PROJECTS

Mega Fresh Ad Hub

Node.js · React · SQLite · Docker

- Digital signage for the Mega Fresh supermarket chain, in production. Web admin app drives Samsung TVs.
- Includes a promo card maker that removes photo backgrounds and prints cut-ready sheets.

superelmejor.com

HTML · CSS · JavaScript · PHP

- Full-stack online catalog for El Mejor Supermarket, with a backend tied to the store's data.

Odoo 19 Rebuild

Odoo · Python · SQL

- Moved the store's inventory, sales and point of sale onto Odoo 19, backed by a clean product database.

Inventory Optimizer

Python

- Picks which products go on a shelf when space is limited, and compares the result with filling it by hand.

HomeLab

Proxmox · Tailscale · Docker · Odoo 18

- Always-on spare-laptop server: Pi-hole, Caddy, Vaultwarden, Uptime Kuma and Odoo 18, reached through Tailscale.

SKILLS

Languages: Python, JavaScript, Java, SQL, PHP, HTML and CSS, Kotlin

Tools and platforms: Odoo, n8n, Node.js, React, Docker, nginx, SQLite, PostgreSQL, MySQL, SQL Server, WordPress, SharePoint, Linux

EDUCATION

B.S. in Computer Science, Minor in Information Processing

University of Puerto Rico at Bayamón

- Student representative, General Student Council. 4th place, beginner division, Interuniversity Programming Competition.
- Coursework: Data Structures, Algorithm Analysis, Operating Systems, Databases, Computer Architecture, Information Security.

CERTIFICATIONS

Microsoft Word Expert (2016), Dec 2024 | Microsoft Excel Associate (2019), Apr 2023 | Google Cybersecurity Certificate, Jul 2023
